WHY SIMPLEFX

Not a bank. Not an app. A dedicated dealer who knows you.

- **Real dealers, not a chatbot**
  A dedicated dealer you can call by name, who knows your business.
- **A real person checks new payment instructions**
  When you email us new payment details, we confirm them with you by phone before we enter them. That check has helped our clients avoid hundreds of thousands of dollars in fraud.
- **Client funds kept separate**
  Client funds are held by an FCA-licensed Electronic Money Institution in segregated accounts with Tier 1 banks, separate from business operations.

WHO WE HELP

Built for businesses that move money across borders, every month.

- **Importers**
  Paying suppliers in the US, Europe, China and almost every other country.
- **Exporters**
  Converting US dollar, euro, pound and other foreign sales back to Canadian dollars.
- **Growing teams**
  Regular payments to contractors, staff and vendors abroad.
- **Property buyers and sellers**
  Individuals buying or selling property in the US and across borders. Transaction sizes from $10K to $10M+.

HOW IT WORKS

1. **Book a call**
   A short chat about what you pay, where and how often. 10 to 15 minutes.
2. **Apply for your account**
   Complete the online onboarding, about 10 minutes. We're on hand if you get stuck.
3. **Book your first transaction**
   Your dealer confirms the rate with you. New payment details are confirmed by phone or multi-factor authentication.

Book a 15-minute call.

With a dedicated FX dealer. No obligation, no pressure, just a clear answer.
